

WISI Communications

See you at:
Cable-Tec Expo '16
in Philadelphia

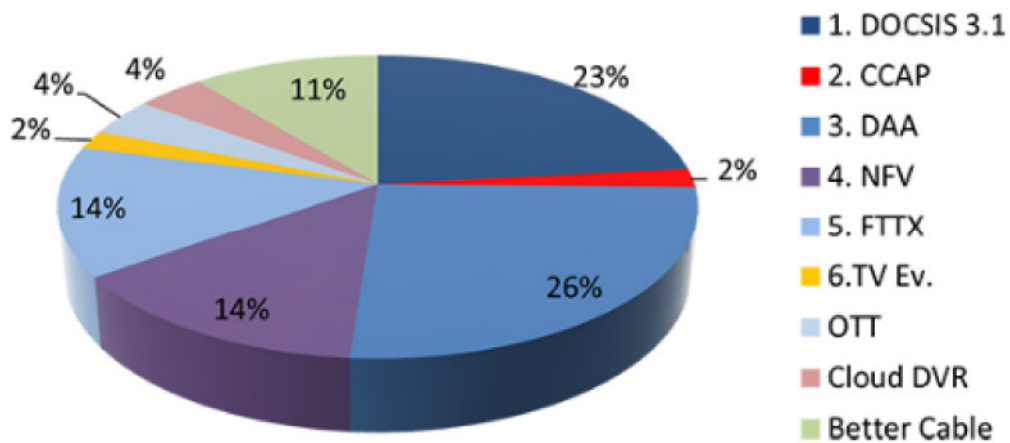

**Ambitious objectives drive our creativity.
We turn inspiration into innovation.**

The brand name **WISI** has a long tradition as a synonym for high quality HFC products worldwide.

From 26th to 29th of September 2016 **WISI** will present its innovative CCAP R-PHY Nodes together with Harmonic Inc. with its outstanding CCAP DOCSIS 3.1 solutions.

HFC networks have gathered decisive momentum again this year with the introduction of DOCSIS 3.1 and DAA Distributed Access Architectures. More over CCAP R-PHY is considered to be the predominate DAA technology, which is going to be adopted by the majority of MSOs.

See what MSOs consider to be the most important investment in their networks the coming two years.

NEX-GEN Technology considered to be the Cable industrie`s biggest priority.

Come and convince yourself and share the same vision of what is going to happen with your HFC networks during the next 5 years. The two companies R-PHY E2E (End to End) solution including the necessary elements for PNM 3.1 (Proactive Network Management) and NMS /OSS integration will pave the way to a complete new Broadband Network based on Coax delivering Gigabits of speed to every subscribers home.

You will find us on the Harmonic booth 1948 at the SCTE Expo 2016 Convention Center in Philadelphia.
